Also, there are several North Carolina permit policies that apply to all customers obtaining oversize and/or overweight permits.

- (1) You may request directly by telephone to the Central Permit Office at 1-888-574-6683 or (919) 733-7154 (local), by faxing a single trip application to (919) 733-7828, or by submitting an application via web if you have a direct fax account set up with our office. Applications may be downloaded from our web page at [www.ncdot.org/~osowpermits](http://www.ncdot.org/~osowpermits) or faxed to you upon request. Forms may be reproduced for future use.

- (2) All requests with a vertical height in excess of fourteen feet (14') are required to be requested in writing at least two working days prior to the effective date for review and processing.
- (3) Incomplete information on the faxed application will result in the application being faxed back to the requestor and will delay issuance of the permit(s). A resend of an application for more information is not a denial of the request. The requested information should be entered on the returned application stamped "resent for additional information" and refaxed as soon as possible to our office.
- (4) Oversize/overweight permits obtained through our credit card program cannot be faxed to a truck stop or a Department of Transportation Division Office.
- (5) The maximum number of permits that may be requested in a single telephone call is four (4). A mobile/modular home (doublewide), with the same serial number and route of travel will be considered as one request.
- (6) No stamps, additions or deletions are to be made to the North Carolina issued document. All agency stamps must be made above or below the contents of the permit.
